TimeTronics Argus Photo Finish System – Club Version

SUPPLIED BY GIMTRAC (PTY) LTD

SPECIFICATIONS

Category	Athletics, Sports Timing Equipment
Origin	Supplied by Gimtrac (Pty) Ltd

DESCRIPTION

A state-of-the-art camera supplied as a complete professional photo finish configuration with mobile cable reels or a fixed underground cabling solution. The “Argus Selection Chart” (added to every TimeTronics photo finish quotation) gives an overview of the predefined setup. Delivered with a standard C-mount 8–48mm f1.2 lens and standard camera head and tripod mounting, or further defined to your needs.

Multiple predefined photo finish configurations are available. All configurations can be adjusted to your specific needs in terms of:

- software
- lens
- mounting (camera head and tripod or other)
- start signal
- cabling (mobile cable reels, underground fixed cabling or semi-fixed cabling)

Major Argus software advantages:

- High light sensitivity
- High recording speed
- Video alignment system
- Continuous recording
- Instant readout of results

- Virtual photocells
- Transponder integration
- Multi-language
- Multi-sport

Required side products

You will need a computer to run the Argus software – offered as an optional product (TTC-001), or you can provide your own.

Our delivered laptops:

- preinstalled with your licence key and software
- photo finish system parameters configured
- delivered with computer mouse and carrying case

Required computer – Argus Club version:

- minimum i5 processor
- 8GB RAM
- 256GB internal memory
- SSD storage

Supplied by Gimtrac. Gimtrac (Pty) Ltd supplies, installs and supports TimeTronics timing equipment in Southern Africa. Prices on request – contact us with your venue and events and we will quote the configuration that suits you.
