Category	Gymnastics, General Accessories, CrossFit
Packed dimensions (L × W × H)	100 x 40 x 10 cm
Weight	10 kg
Origin	Manufactured by Gimtrac in Centurion · Made in South Africa

DESCRIPTION

A multi-grip pull-up bar for the wall: two cross bars with a ladder of grips between them, so wide, narrow, neutral and angled grips are all in one bar, for a full upper-body workout.

Specifications / What's Included:

- Width: 1 263 mm over the wall strips
- Reach: 509 mm from the wall
- Grips: 2 cross bars, 6 grips between them
- Wall strips: 554 mm high
- Fixing: four M10 rawl bolts
- Finish: dark grey powder coat; bolts zinc plated
- Weight: approx. 16 kg

Features:

- The cross bars rise in the middle, clear of the brackets, for a wide overhand grip
- Two brackets, each an arm and a 45° brace welded on a wall strip, bolted top and bottom into the wall
- The grip assembly bolts to the brackets from the outside, two bolts each side: it goes up in pieces
- Every grip scalloped to the cross bars for a full weld all round

- Dark grey powder coat; zinc plated bolts; black end plugs in the arms

Made in-house by Gimtrac in Centurion: designed in CAD, every joint slotted and tabbed on our 6 kW tube laser and welded with our laser welder. Other sizes, reaches and grip layouts, any powder-coat colour, galvanised or zinc plated, are made to order. Contact us for a quote.
