DESCRIPTION

Now in stock 8m T2

10m and 12m coming in November

The Inflatable AirTrack T2 is a fantastic training track for gymnastics and tumbling clubs. The 15 or 20cm thickness gives enough boost to be very similar to that of a spring floor. With the low impact on joints and muscles, the Inflatable AirTrack T2 is a preferred option by coaches and

athletes. For training facilities that have space issues, the Inflatable AirTrack T2 is quick and easy to inflate and then deflate again or even light enough to store on its side against a wall. Middle to high-level acrobatic exercises can be practiced with confidence. Fun, safe acrobatic training.

Features:

- 200cm wide with a height of 15 or 20cm
- Lengths range from 600 to 1400cm
- Centre line provides guidance for straight tumbling
- Includes electric blower

Product Dimensions (LxWxH):
