DESCRIPTION

Built for high-level rugby, the Rhino Vortex Pro Size 5 Match Ball combines advanced construction with precision performance. The Neo Tech rubber composite provides a reliable grip and consistent feel, while Aerosensa grip technology supports accurate passing, throwing and handling throughout the game.

The ball features a multi-layer construction of rubber-coated polyester and cotton fabric, offering durability without compromising on comfort. Its aerodynamic design and balanced bladder help deliver a controlled, predictable flight, while the Airlock bladder helps retain air pressure for consistent performance. Expertly hand-stitched using microwaxed 9-ply thread, the Vortex Pro is made to withstand the demands of the game.

The 20 June 2026 Springboks vs Barbarians fixture gets its own special edition with this limited-run Size 5 Vortex Pro. Pre-kicked and ready for action, it's made for the field but designed to be remembered.

This ball arrives deflated, pumps sold separately here.
