DESCRIPTION

The **Rhino Soccer Thunder Training Ball** is available in sizes 3, 4 and 5. This high-quality training ball is designed for longevity and is suitable for various types of training sessions. The outer layer is constructed with durable PU material, while the inner layers are made up of 1.8mm non-woven material, 3 layers of PV, and a layer of Korean Vulcanised Rubber Sheet that is utilised in the lamination process. This advanced lamination technique guarantees exceptional flight performance and overall durability, making it the perfect option for all of your training requirements.

This ball arrives deflated, pumps sold separately **here**.
